Buck Lake is stocked with trout from funds donated by its Members.

Camping Memberships with exclusive use, possession and control of a specific campsite are now available. There are sites which are established while others remain in their natural state. You choose the one that best suits your needs and the site you choose may be developed within the guidelines of the Association's by-laws. There is also a "one time transfer" if you should change your mind at a later date.

Each Member is entitled to one vote per Membership.

The facilities are mainly centrally located and there are no restrictions of use of the facilities, such as operation and use fees. Responsibility for repair and maintenance is held by the Association.

The campground assets are available to all Members and their guests however, no person other than his or her immediate family or authorized person may use the campsite. An onsite Caretaker assures that your investment is secure and there is a friendly face to greet you upon arrival.
